Emergency Preparedness

As we all know, emergencies can strike at any moment, so it's crucial to be prepared. Having both a Basic Supply Kit and a Disaster Supply Kit can make all the difference for you and your family. Here's what we recommend:

◆ Basic Supply Kit:

- **Water:** At least one gallon per person per day for at least three days.
- **Non-perishable food:** Think energy bars, canned goods, and dried fruits.
- **Flashlight & batteries:** Power outages can happen anytime!
- **Multi-tool:** Useful for various tasks.
- **Portable phone charger:** Keep your devices powered.
- **Whistle:** To signal for help if needed.

◆ Disaster Supply Kit:

- **First Aid Kits:** Clearly labeled and stocked. Keep one at home, in each vehicle, and at work. Rotate supplies regularly to ensure everything is fresh.
- **Personal medications:** Ensure a week's supply for everyone.
- **Important documents:** Keep copies of IDs, insurance, and emergency contacts in a waterproof bag.
- **Emergency blanket:** Compact and warm.
